American organ builders Elias and George Hook, brothers from Boston, constructed the 52-stop, 3,504-pipe instrument in 1864. It is the oldest unaltered four-keyboard pipe organ in the Western Hemisphere located at its installation site. Restored in 1982, the Hook Organ since then has become one of the most popular and respected organs in the United States. It has been featured numerous times on National Public Radio, performed in several recordings, and has been featured on television and in a major motion picture, as well as in a music video starring Michael Crawford, the original "Phantom of the Opera."
